this book is a printed edition of the special issue sustainability in construction  
engineering that was published in sustainability

the fourth edition of construction schedules examines the use of construction schedules in  
resolving disputes over contract time extensions and the economic consequences of such and  
takes an in depth look at the only lasting opinions that count in this litigious arena  
these opinions are the ones expressed by the united states court system and other third  
party neutrals across the world construction schedules are now globally used and analyzed  
to establish and prove opposing positions when projects are completed later than promised  
occurrences that are attributable to a multitude of causes during the construction process

entitlement to equitable adjustments due to changed conditions is now argued across the globe and american court opinions are the linchpin landmarks for neutral decision makers the current edition of construction schedules reflects the current thinking of the courts and suggests how parties and their attorneys should prepare and proceed in litigation arbitration or mediation for anyone involved or potentially involved in construction schedule litigation and or dispute resolution this work is the required starting point and reference
